

## **ENVIRONMENTAL POLICY**

*“We are committed to the preservation of our environment”.*

### **Our vision:**

*Hotel Valentin Sancti Peter shows its commitment to the protection of the environment, the prevention of the contamination and to reducing possible effects of our activity to the environment.*

### **Our objective:**

*With our environment politics we expect:*

- to fulfill all the legal requisites and applicable regulations in matter environmental way of application to us.*
- to measure our environmental average performance, comparing our results year by year, making sure that they are faced towards the continuous progress.*
- to imply, form and make aware to our staff of our commitments regarding the environment, so that they can understand the role that it redeems inside our targets.*
- to encourage our guests to support our strains for the reduction of the environmental impact.*

### **Environment protection aims:**

*To be able to realize our objective for 2017, we aim to meet the following:*

- get and maintain the "Travelife Excellent" honoring for hotels and lodgings.*
- reduce the energy consumption about 5% in comparison to the year 2016, with the help of energy savings arrangements (LED technology) and movement dispatch riders in the public areas.*
- reduce the water consumption about 5% in comparison to the previous year 2016 in the hotel's bathrooms of water par - ray regulator in the tap of the wash basin and shower or bath, and also with low flush toilets, which contribute to the water saving.*
- minimize the residues sending to the dump of organic residues 5 % in comparison to 2016 segregating our glass residues, packings, plastic, paper, cartons, etc. and identifying to reuse or recycle these materials.*
- reduce the use of potentially harmful chemicals in our operations by 5 % with regard to 2016 and the replacement for innocuous, natural and biodegradable products*
- start a sensitization plan on the protection and conservation of flora and fauna of our environment, especially those who are in extinction danger and imply our clients take interest in them.*
- be sure that 10 % of our non- consumable products are made from recycled material.*

*All of these intentions are supported in order to optimize the resources consumption, to protect the natural habitat and to prevent the contamination of acoustic, atmospheric, waters and soil.*
